

# CALCIMIX

**COMPOSITION PER 1 KG.:**
**Vitamins, provitamins and substances chemically defined of analogous effect**

Vitamin D3 - (E671)	1.875.000,00 UI
25-hydroxycalciferol - (3a670a)	125.000,00 UI
Vitamin C - (3a300)	17.500,00 mg.
Choline Chloride - (3a890)	25.000,00 mg.

**Compounds of trace elements:**

Copper (Copper Sulphate pentahydrate) - (E4)	1.250,00 mg.
Zinc (Zinc Oxide) - (E6)	8.500,00 mg.
Zinc (Zn chelate of glycine hydrate) - (E6)	1.500,00 mg.
Manganese (Mn Oxide) - (E5)	15.000,00 mg.
Manganese (Mn chelate of glycine hydrate) - (E5)	1.500,00 mg.
Iron (Ferrous Carbonate) - (E1)	1.025,00 mg.
Iron (Fe chelate of glycine hydrate) - (E1)	225,00 mg.

**Antioxidants:**

Ethoxyquin - (E324)	150,00 mg.
---------------------	------------

**Preservatives:**

Sodium Formate - (E237)	25.000,00 mg.
Calcium Formate - (E238)	25.000,00 mg.
Calcium Propionate - (E282)	50.000,00 mg.

**Amino acids, its salts and analogous:**

DL-Methionine technically pure - (3c301)	7.000,00 mg.
--	--------------

**Raw materials:**

Magnesium Oxide	50.000,00 mg.
Monocalcium Phosphate	220.000,00 mg.
Calcium Carbonate	420.000,00 mg.

**Carrier:**

Sodium calcium salts of Feeding Fatty Acids - (E470) s.q.f.	1.000,00 g.
---	-------------

**Instructions of use:** Organic minerals and vitamins PREMIX for the manufacturing of layers and breeders feed to improve hardness and consistence of the shell.

**Directions for use:** Dose from 1 to 1,5 Kg per ton of complete feed. Well mixed

**Undesirable substances:**

**Heavy metals:** Lead (Pb) <200 ppm; Cadmium (Cd): <15 ppm

**Dioxins:** Dioxins <1.0 ngEQT / kg; Dioxins + PCB <1.5 ngEQT / Kg.

Compliance with the limits established by current legislation (Directive 2002/32 / EC) and subsequent amendments to all undesirable substances.

**PACKING** 25 Kg 3 layered bags. Palletised and retractile.

**EXPIRY DATE** 12 months from manufacturing date.

**STORAGE** Store in dry and fresh place.

Autorizacion N°: aifa-ESP43100026
